SUMMARY

Software Engineer with expertise in full-stack development and AI evaluation, building scalable web applications and production-ready solutions. Experienced in AI model training through benchmark engineering, code review, task authoring, and technical evaluation.

WORK EXPERIENCE

AI Evaluation Engineer / Software Engineer (Contract) *Jan 2026 - Present*
Handshake AI *Remote*

- Authored and validated software engineering benchmarks and coding assessments across multiple programming languages, helping train and improve next-generation AI systems.
- Developed robust verification pipelines using Docker, Git, Bash, and automated testing, driving code quality, edge-case coverage, and AI evaluation reliability.

Software Engineer *Jan 2025 - Jan 2026*
Neog Camp *Bengaluru, Karnataka*

- Built a production-ready CRM web application from scratch to manage customer relationships, track interactions, and support scalable workflows with dashboards and data visualizations.
- Refactored the application from client-side local storage to a backend-driven architecture, improving data consistency, security, and multi-user support.
- Improved and maintained the company website by optimizing performance, fixing UI and responsiveness issues, and creating reusable components for maintainability.
- Mentored junior developers through code reviews and debugging, improving code quality and development efficiency across the team.

PROJECTS

Eterris - CRM Platform 🔗 *Apr 2026*

Full-stack lead management platform for streamlining sales workflows and real-time pipeline analytics.

- Built a scalable MERN architecture with React.js and Node.js/Express REST APIs.
- Developed an interactive dashboard using Chart.js for tracking revenue and agent performance.
- Implemented dynamic filtering and sorting logic using URL parameters for advanced lead discovery.
- Designed MongoDB schemas to efficiently manage complex lead-toagent relationships.
- Created a responsive, professional UI using modern CSS Grid/Flexbox and custom animations.

Tech Stack: React.js, Node.js, Express.js, MongoDB, Mongoose, React Router, Chart.js, REST APIs

TECHNICAL SKILLS

Programming Languages: JavaScript (ES6+), TypeScript, Python, Java, SQL
Web Tech: React.js, Next.js, Node.js, Express.js, MongoDB, REST APIs, Data Structures & Algorithms
AI & Tools: LLM Evaluation, AI Quality Assurance, Model Benchmarking, Prompt Engineering, Code Review, Test Automation, Edge Case Analysis, Git, Docker, Linux, CI/CD

EDUCATION

Master of Computer Applications (MCA) - GPA: 3.8 / 4 *2023 - 2025*
Uttaranchal University *Dehradun, Uttarakhand*

Full-Stack Web Development *2025 - 2026*
NeoG Camp - by Tanay Pratap (Ex-Senior Software Engineer @Microsoft)
